

# Energy Storage Product Application

## Home Energy Storage

The home energy storage system can be used to balance the load of the grid and handle the peak demand of power. Help users reduce energy consumption and improve energy efficiency.

## Mobile Energy Storage

Mobile energy storage is suitable for outdoor activities, outdoor operations, road emergency rescue and other scenarios. Provide users with convenient power support while achieving a more environmentally friendly and energy-efficient outdoor experience.

## Commercial Energy Storage

Renewable energy and energy storage technologies are used to balance the fluctuations between electricity demand and supply, improve energy efficiency and reduce energy costs.
